Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner has proposed the claim amendment on claim 36 to disclose the stem cells being as "CD34+" cells based on the finding that the claimed invention requires c-met expression and CD34+ cells would express c-met while CD34- cells do not according to the teaching of Weimar et al. Applicant counter-proposed to amend the stem cells being c-met expressing stem cells. The Examiner indicated that the applicant's proposal would be equally effective and place the application in condition for allowance.
